

One year ago Nelson & District Credit Union requested community groups in Rossland to submit proposals on what they would do with \$50,000 that the Credit Union was making available through the Community Investment Program. A committee was formed to face the daunting task of paring down all the quality submissions they had received to a total of four. Following that exercise the members of the Rossland Community Branch of the Credit union voted on which organization would receive the funding, and the winner was the Golden Bear Children's Centre!

The above picture shows Rossland Community Branch Manager, Brian Poch, assisting with the ribbon cutting for the Grand Opening of this spectacular new Children's Centre.
